

# GYAN PRAKASH

Lead Product Designer, Bengaluru | +91 8468830568 | mgyan1996@gmail.com

Portfolio website : [www.gyan.design](http://www.gyan.design)

---

## PROFESSIONAL SUMMARY

Lead Product Designer with 6+ years of experience transforming complex, data-heavy IT systems into intuitive enterprise interfaces. I combine an engineering mindset with strategic UX architecture to deliver scalable, highly feasible UI solutions that drive business outcomes including an 80% reduction in user support tickets.

## PROFESSIONAL EXPERIENCES

### 1. Hewlett Packard Enterprise

Bengaluru

Lead Product Designer

May 2026 - **Present**

- **UX Architecture & Integration:** Leading the UX strategy to merge legacy Aruba and Juniper network ecosystems into a single, unified Network Services Platform (NSP) support portal.
- **System Design & Scalability:** Architecting an acquisition proof and modular UI framework that allows IT admins to manage complex hybrid cloud networks without friction.
- **Design-to-Development Handoff:** Standardizing the enterprise UI component library (Grommet) with responsive auto-layout and variables, significantly reducing design debt and accelerating engineering build times.
- **Evidence-Based Design:** Implementing data-driven practices to validate high-density data visualizations and log structures against actual user pain points before frontend development begins.

### 2. Fasal.co, IoT, SaaS

Bengaluru

Senior Product Designer

Aug 2022 - May 2026

- **Product & UX Strategy:** Led end to end user experience strategy for enterprise IoT monitoring platforms, achieving **15%** growth in Daily Active Users (DAU) and a **10%** increase in premium feature adoption.
- **Data Visualization & UI:** Redesigned the core Sensor Dashboard to make telemetry data (humidity, soil moisture) readable for non technical farmers. Reduced decision making time by **40%**.
- **Design Systems & Scalability:** Architected a scalable **Atomic Design System** supporting 3 software verticals. Standardized UI components (Atoms to Organisms) across Web and Mobile, reducing design to development handoff time by **35%** and cutting release time by **2 weeks** per cycle.
- **Operational Efficiency & AI Workflows:** Optimized design operations by introducing AI augmented prototyping workflows (Cursor/Claude) for rapid frontend code validation, cutting iteration cycles by **50%**. Mentored 3 junior designers on data driven design and AI literacy.

3. **BazaarNXT | B2B Supply Chain & Logistics Platform**  
Product Designer

Bengaluru  
March 2021 – July 2022

- **End to End Product Execution:** Designed and launched the BazaarNXT mobile app (Android/iOS) and internal merchandising & pricing tools for BDEs. **10,000+** users onboarded within the first 3 months.
- **System Design & Efficiency:** Revamped three core web platforms (ProcureNXT, SellerNXT, PackNXT) under a Unified UI/UX Design Language, cutting frontend development time by **50%**.
- **User Retention Strategy:** Redesigned key customer touchpoints based on behavioral analytics, achieving a **30%** increase in retention rate and a **50%** decrease in bounce rate across the e-commerce funnel.
- **Strategic Impact:** Designed high fidelity, investor facing product visions that helped secure Series A/Bridge funding by demonstrating product market fit.

4. **Ucertify, Ed tech**  
Product Specialist

Noida  
Feb 2020 – Feb 2021

- **User Research:** Conducted 50+ product demonstrations and client interviews, translating feedback into UX product recommendations that measurably improved user satisfaction.
- **Cross functional Collaboration:** Worked with international engineering teams to refine product positioning, directly supporting revenue growth through upselling initiatives.

## SKILLS

- **Core Competencies:** Enterprise Product Design, User Interface Design (UI), Data Visualization, Complex System Design, IoT Experience (IoT), Information Architecture (IA), Service Design, Usability Testing, A/B Testing.
- **Design Leadership:** Design Systems (Scalability), Product Strategy, Agile/Scrum Methodology, Technical Feasibility Assessment, Cross functional Collaboration, ROI Driven Design.
- **Tools:** Figma (Variables & Auto layout), Cursor, Claude, JIRA, Miro, Useberry, Notion, Zeplin.

## EDUCATION

- Interaction Design Foundation (**TOP 10%**) 2020-2021
- B.Tech (AE) – Lovely Professional University 2016-2020
